THE SPECULATIVE MARKETS

First Sales of Wheat Were at About Thursday's Figures.

LATER THAT CEREAL PROVED WEAK

Fears of Frost in the Dakotas and Other Western States Had Some Effect Early, But It Would Not Hold.

CRICAGO, Ill., July 29.-A spasm of weakness seized the market in the final fifteen minutes. Compared with last night wheat closed %c lower, corn %c and provisions 5c. Expectations of big receipts of wheat tomor-row, combined with a report that the Hatch bill had been taken up in the senate and that its passags was feared, were the causes chiefly responsible for the downward slide.

The first sales of wheat were at about the slosing price of last night, but the market proved quite weak for a time and fell %c. The weather conditions were reported favorable, domestic markets were slow and weak, but exples came in showing advances in nearly all European markets. Stories of small yields from the threshers were industriously circulated and the prediction made that the yield of wheat on this basis would drop considerably below 500,0 0,000 bu. Mitcheil, Brosseau, Lozan and others began boying, and with no great amount for sale it was all quickly absorped and prices gradually strengthened. All the early decline was re-

quickly absorved and prices gradually strenithened. All the early decline was repovered and the market held steady on reports of very cold weather in the extreme north. In several terratories the thermometer was said to be down to 31°; an attemot was made to create some strength on the fear of frost in the Dakotas.

An Antwerp letter said no Russian wheat was being offered, and that Roumania's crop was only 30 per cent of last year's. The indications today were considered by many to favor a big mercase in the visible samply. In corn there was evident reductance to press sales at prevailing prices, nor was there, on the other hand, much disposition to buy to any great extent. The weakness in wheat toward the close caused some realizing. Fluctuations were limited to from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ to a variety dull and featureless. Price changes were unimportant.

The provision market at the opening was rather firm and a few orders were provided for at slightly advanced prices. A weaker feeling was developed, however, and prices receded on all the leading articles. The market closed rather easy at inside figures. Trading main y in September contracts.

Freights were dull and heavier, 2c for wheat and 1\frac{1}{2}\$ for corn to Buffalo.

Estimated receipts for tomorrow: Wheat, 400 cars; corn, 550 cars; oats, 220 cars; hogs, 8,00) bead.

The leading futures ranged as follows:

Peoria Grain Market. PEORIA, Ill., July 29 .- Conn-Scarce at 44@

OATS-Quiet; No. 2 white, 31%c. Traders' Tatk. Chicago, Ill., July 29.-F. G. Logan & Co. to Duncan, Hollinger & Co.: We have and a dull and uninteresting wheat market today. September opened at 77%c, sold and closed at 77c. There is no change in the conditions. The movement of the new crop in-creases and the beence of a foreign lemand continues. Until this demand

comes we cannot have any improvement in prices. The business doing in corn was moderate. The buying has been principally local. Good rains throughout the corn belt should be in favor of lower prices. But many of our solid men believe we cannot have a large crop, and are buyers on all weak markets. It looks safe to buy around 48c. September closed at 45%c. Thore is no feature in the oat bit, very little doing. Provisions in sympathy with corn were weak.

Chicago, Ill., July 20.—Kennett, Hopkins & Co. to S. A. McWhorter: The market has been rather heavy and the reason given is that receipts are too large and the foreign demand too slack. If it is the pressure of deliy receipts that depresses the market what explanation can be given of the fact that cash wheat is generally above options in all prominent markets and is especially strong in that market is Louis, which is getting the buik of the new receipts. There it is 4%c over August. The weakness today is unaccountable except on the theory that the price generally decilies when there is no outside business. Nearly everybody counted on a break in corn and that is probably why it did not decline materially. The deal seems to be in strong hands and country buying orders come in moderately. The friends of corn say that a comparatively short crop is sure and a good many dangers are still ahead. Provisions have been duil and featureless, selling off somewhat near the close in sympathy with other markets.

Cincago, Ill., July 23.—Counselman & Day to Cockreil Bros Commission empany: Wheat closes weak in spite of the uniformity higher cables. The improvement in weather conditions probably had some effect, but not very much. The crowd were in a selling homor all day but did not get well started until near the close when a weaker corn market emboldened the bears, and it went to a point where they sold freely in the face of the improved foreign markets first alluded to. News was more than ordinarily scarce. The crop movement is running along evenly, showing total receipts 1. comes we cannot have any improvement in prices. The business doing in corn was moderate. The buying has been prin-

STOCKS AND BONDS.

Traders Were Satisfied with the Strength Displayed Yesterday. New York, July 20. - The stock market today displayed on the whole a strength which was sat sfactory to the advocates of higher figures. Although the trading in stock at present is still largely professional, there is a larger proportion of outsiders interested in the changes of values than for a ion, time past The effect of the gold inovement was nothing more than to check for the time being the buying and consequently the amount of business done was reduced after some realizations. The industrials occu-pled a less prominent position in the market than during the last few days, but Sugar was still a leading active share, and pursued a course samething similar to that of yesterday, a material reduction being followed by a full recovery. Among the railroad list Atchison was the leader and on a comparatively large business it was moved | Boston, Mass., July 19.-Clearings, \$13.441,-

about 1 per cent. The conversion of the incomes, it is felt, will add integly to the value of the stock, while the showing of earnings by the company have of late been satisfactory. The only other prominent stock which showed any material fluctuation was Western Union, reaching today within 29 per cent of par. Among the industrials, the Lead stocks became the strong feature, the preferred rising about 2 per cent, but the others followed the lead of Sugar. The market closed strong at about the best prices. The transactions reached 219,831 listed and 31,732 unlisted.

Government bonds have been duil and steady. State bonds have been duil and steady. State bonds have been duil and steady. State bonds have been duil and steady. The Post says: In the early trading today wall street was not in a mood to reserve anything but favorable news. Fortunately there was at hand one distinctly favorable fact in the day's development. That the week's weather has been wonderfully pronitious to the growing crop, all trustworthy authorities agree. Such excessive neat as the whole country has experienced is traditionally "corn weather." and it came on a corn rooted in soil saturated by the May floods. As if to stop predictions of a drouth, heavy rains were reported today as falling throughout the grain region.

What Bradstreet's Says.

New York, July 29.—Bradstreet's thus reviews the stock market: Althouth the excessively high temperature would have justified complete speculative stagnation, the market this week has shown strength with a fair amount of activity. The feature of the movements it is true, has been the industrial stocks, and the manipulation in which leading members of this group have generally attained high quotations have been of an unmistakable character. The speculative community has, however, regarded the movement in question as a decided change for the unprofitable stagnation that had blitherto prevailed in Wall street. At this time it is noticeable that sentlment in regard to rallway securities has swung over to the bull side, and that so far as the railroad list participated in the increased activity its tendency was mainly in the direction of a higher level of values.

European interests have continued indifferent to the condition of affairs here, and while no pressure to sell our securities has appeared from that point, there was a marked absence of buying for London account. Some sill ht improvement in public participation has been noticed, although so far as this had any effect upon the market it was mainly confined to the industrial list. Lending operators, it would seem, still hesitatin to take active part in the market is the cause for the market being found in uncertainty regarding the weather and the crops.

The condition of corn was to some extent the chief factor of interest. The receipt of accounts, indicating that hot weather and drouth had lowered the average throughout the corn beit, was not without effect, although later advices indicating that abundant rains had restored the favorable condition motified the early impressions. The strength of exchance and the fear of gold shipments furnished another cause for speculative hesitation. Notwithstanding these drawbacks however, the congress and the sea devenues for speculative hesitation. Notwithstanding these What Bradstreet's Says.

shipments furnished another cause for speculative hesitation. Notwithstanding these drawbacks, however, the general market has exhibited an exceedingly strong undertone, and while such advances as were secured may be ascribed in part to sympathy with the rise in the industrials, the impression renains that any movement in railroad shares would assume a bullish character.

London Financial Review. [Copyrighted 1892 by James Gordon Binnett, 1 [Copyrighted 1822 by James Gordon Brings, 1 LONDON, July 29.—[New York Herald Cable— Special to THE BEE]—A fair amount of busi-ness has been transacted in the Stock ex-change today, which is more especially notice-able just when so many people are leaving on their holidays. Funds are unchanged, while able just when so many people are leaving on their holidays. Funds are unchanged, while Indian rupee paper is ½ lower, owing to the weakness in sliver. Home railways met with a good deal of attention. Midiand at one period fell ½ per cent, but on the announcement of the dividend query recovered and closed ½ per cent higher. Great Northern issues improved ½ per cent to 1 per cent on the dividend announcement. Northern issues improved 15 per cent to 1 per cent on the dividend announcement. A small improvement is also established in Great Western, fiull & Birnes ey, Midland, Northeastern, London & Northwestern and Southeastern deferred. American railways have been quite active throughout the day, buyers having come forward more freely than for some time past, crop reports, increasing traffic and reports that the southwestern roads have raised rates causing a more confident feeling. Not much importance is attached to the threatened gold shipments, as they are known to be nearly at an end, and money has continued to be a druz. Short loans have been freely offered at 15 per cent. In the discount market few bills have been brought forward, those at two and three months being quoted at 13-16 to 14 per cent.

LIVE STOCK MARKETS.

Cattle Recovering Sumewhat from Late Depression—Hogs Weak and Lower.

Osaha, July 23.—Receipts for the past five days foot up 348; eattle, 27,500 hogs and 3,147 sheep against 9,830 cattle, 25,501 hogs and 725 sheep the same five days last week.

The supply of cattle was not by any means excessive and a good share of the offerings were western calves and yearlings. Desirable cornfed cattle were in active domand, and as there were comparatively few of this kind here prices ruled stronger—enerally choice here, but local, shapong and export buyers bought fair to good 1,000 ib, to 1,300-ib, steers at from 34 00 to 34.50. The western cattle were mostly feeders but some fair (258-ib, grassers sold for \$3.15. A vely fair clearance was effected.

There were some fifteen or sixteen cars of cows and mixed stock on an e, and with a very fair demand prices ruled steady to strong. Outside of a small bunch of helfers that brought \$1.25 sales were largely at from \$1.25 to \$2.15. with a big string of fair westerns \$1.50 to \$2.55. There were lots of calves here, mostly westerns, and they sold at from \$1.25 to \$1.50. The receipt rule about the same as Cattle Recovering Sumewhat from Late De-

The stocker and feeder trade was not overly The stocker and reeder trade was not overly active with prices ruling about the same as they have for the past few days. Sales were most y at from \$2.50 to \$4.00 for fair to good stuff, with plenty of common to very fair stock at from \$2.00 to \$2.50. Representative

Chicago Live Stock Market,
Chicago, Ili., July 29.—[Special Telegram to
The Bee]—There was a better tone to the
cattle market today, but not much increase
in prices. That values were firmer was by
reason of decreased receipts and cooler
weather. The arrivals were nearly 8,000 head
less than for Thursday and of that number
all that had merit were bought up in good
season. The range of quotations was from
\$1,00 to \$1.57 and extra 1,530 to 1,700-lb. steers
were quoted at from \$5.20 to \$3.30. Texas furnishes nulf of today's receipts. Cattle from
that state were quoted at from \$1.25 to \$3.55)
for poor to choice grassers and at from \$3.50 to
\$4.00 for fed.

The hog market was firmer than on yester-Chicago Live Stock Market,

for poor to choice grassers and at from \$3.50 to \$4.00 for fed.

The hox market was firmer than on yester-terday. Choice sorts did not sell perceptibly higher, but the average of prices for common to good grades was about 5c stronger. Sales were at from \$5.55 to \$5.75 for common to good grades was about 5c stronger. Sales were at from \$5.56 to \$5.75 for common to medium and at from \$5.50 to \$6.50 for good to prime. It was pretty common stuff that had to go below \$5.65, and most the trading was above \$5.70. Extra assorted were quoted as high as \$5.10 and sales of culls were at \$5.05. The proport on of good heavy hogs was small and not many sales were noted above \$5.9.

There was a quiet sheep trade today and very little change in values. Good stuff sold strong and the poorer grades were fully stondy. Lambs remained firm. Sales were on a basis of from \$2.50 to \$5.00 for culls, at from \$4.75 to \$4.75 for good to choice. Sales of lambs were principally at from \$5.50 to \$5.50. Recepts: Ca ties \$5.00; hogs. \$3.50 to \$5.50. Recepts: Ca ties \$5.00; hogs. \$3.50 to \$5.50.

While at our store at Big Island, Va., last April, I was taken with a very severe attack of diarrheea. I had never had it worse in my life. I tried several old-time remedles, such as Blackberry Wine, Paregorie and Laudanum without getting relief. My attention was then called to Chamberlain's Colic, Cholera and Diarrheea Remedy by Mr. R. C. Tinsley, who had been handling it there, and in less than five minutes after taking a small dose I was entirely relieved.—O.G. Burrord, Harris Creek, Amberst Co., Va,

MORE LETTER CARRIERS.

Postmaster Clarkson Meets Increasing Business by Appointing Five New Men. Postmaster Clarkson has been authorized to appoint five more mail carriers. The following have been promoted from subcarriers to carriers: Charles E. A. Johnson, John R. Stein, John C. Parker, Henry E. Gunner, Edward G. Fisher.
The following have been appointed subcarriers: James D. Wood, Clifford P. Daniels, Frank Fogarty, L. Ewers, John

Eich and W. A. Bowman. These appointments are subject to the approval of the postmaster general. Omaha now has sixty-seven carriers and seven subcarriers. When Major Clarkson took the office a little over two years ago there were only forty-five carriers con-nected with the office. Spearing of the in-crease in business and of employes the post-

master said:
"The department at Washington has treated me very kindly. I have been granted nearly everything in the way of extra help that I have asked. I have been careful not to ask for anything that was not an absolute necessity, and when the inspectors have come here I have had no difficulty in showing them that we needed what I had requested the department to grant. It has been difficult at times to convince the department that our needs were growing so fast, but when the inspectors come here I take them in my buggy and show them the territory our carriers have to cover and the ousiness we have to handle, and in every instance I have succeeded in convincing them that we needed the help for which we had

As a delicate flavor, delicious and refreshing, COOK's Extra Dry Champagne takes the lead. Millions of bottles are sold annually.

UNPALATABLE PIE. City Prisoners Furnished with Delicacles of a Very Queer Character,

An innocent appearing pie caused considerable consternation at the city jail early this orning. It was sent in for took one bite and said he didn't care for any more just then. He was not fond of pie, any

On examination the interior of the article was found to be composed of decayed mincemeat and worms in nearly equal quantities. The health inspector and the meat in-spector were called in and decided that there was something rotten in the combination which has the contract for serving meals to prisoners and asked that a warrant be issued for the arrest of all parties implicated. The city prose-cutor refused to sign the complaints and the olice will present the pie for the inspection of the mayor and police commission and ask that some action be taken.

tises that his blood medicine doesn't amount to much. They re all of them "the best." But there's only one of them that's good enough to guarantee — and that is Dr. Pierce's Golden Medical Discovery. that, if it fails to benefit or cure, in any case, you have your money back. It's a medicine that cures, in all diseases

No body adver

caused by a torpid liver or impure blood. It's not like the sarsaparillas, which claim to do good in March, April, and May. All to good in march, Apiri, and any. An the year round, with equal benefit, it cleanses, invigorates, and builds up the entire system. If you're bilious, "run-down," or dyspeptic, or suffering from any blood-taint or disorder, that's the medicine you need. For the worst forms of Scrofula, and in the most stubborn Stin and Scale Diseases, such as Salt-rhoun Skin and Scalp Diseases, such as Salt-rheum, Tetter, Eczema, Erysipelas, and all kindred ailments, nothing can equal it as a perfect and permanent remedy. The genuine soil for \$1.00. Beware of spurious imitations or dilutions, offered at less prices.
